17 October 1956

**MEMORANDUM FOR:** Project Communications Officer

**SUBJECT** : Coast to Coast Communications Facilities

**REFERENCE** : Memorandum to Project Director, same subject,  
dated 11 October 1956, from Project Comme Offr  
(SAPC-9923)

I concur in the arrangements recommended in the reference. It is my understanding that the teletype line will not be leased until it is going to be needed and that you will require some three weeks notice of the date by which time the communication link should be in operation to a Far Eastern Base.

RICHARD M. BISSELL, JR.  
Project Director
